Service Worker

Service Worker

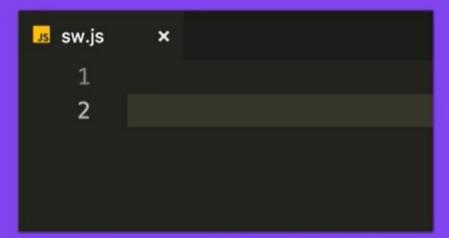

¿Pero qué es?, ¿Qué puede hacer? ¿Cómo funciona?

Es un archivo de JS

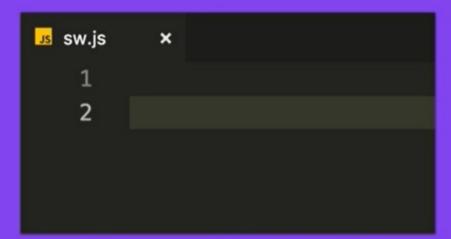

Se compone de muchos eventListeners

```
sw.js x

1 |
2 self.addEventListener('ALGO', event => {
3
4 });
5
6
```

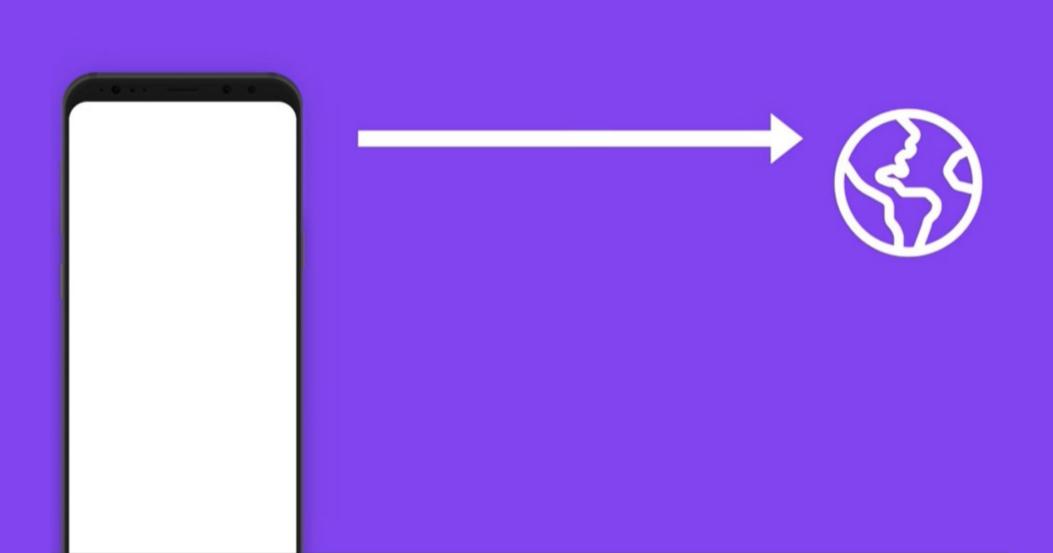

Es un archivo de JS

- · install
- activate
- push
- fetch
- sync
- message

Se compone de muchos eventListeners

```
sw.js x

1  |
2  self.addEventListener('ALGO', event => {
3
4  });
5
6
```

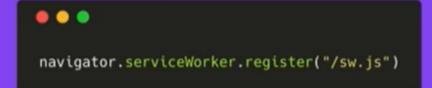

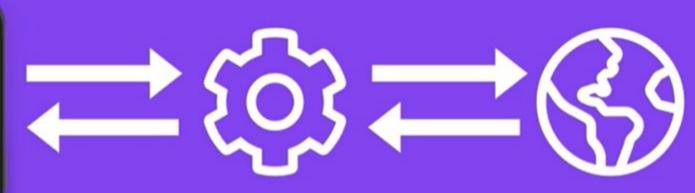

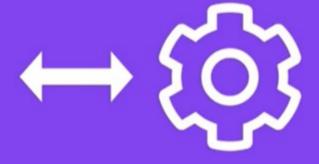

Corre en el background

Corre en el background

Corre en el background

Sigue escuchando eventos

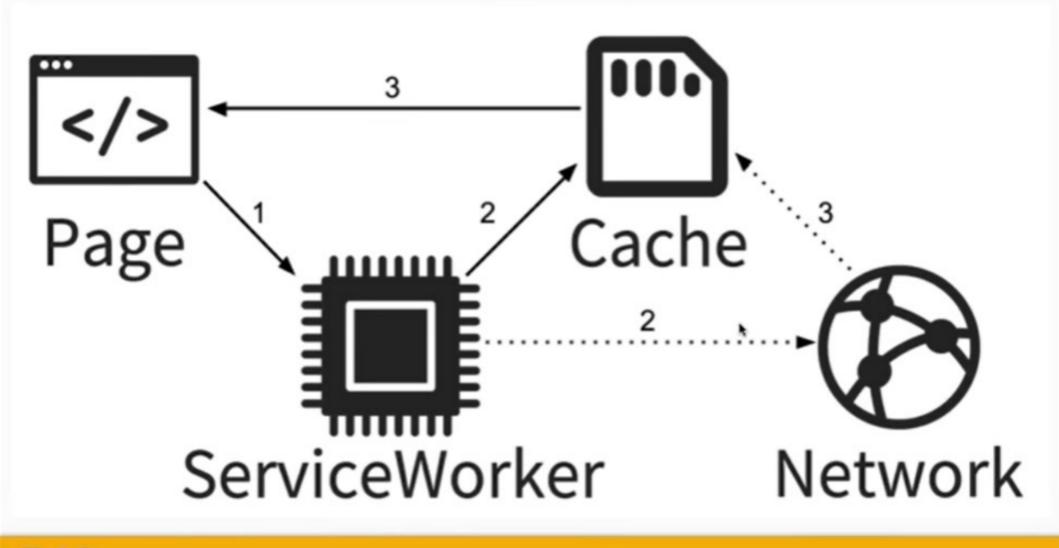

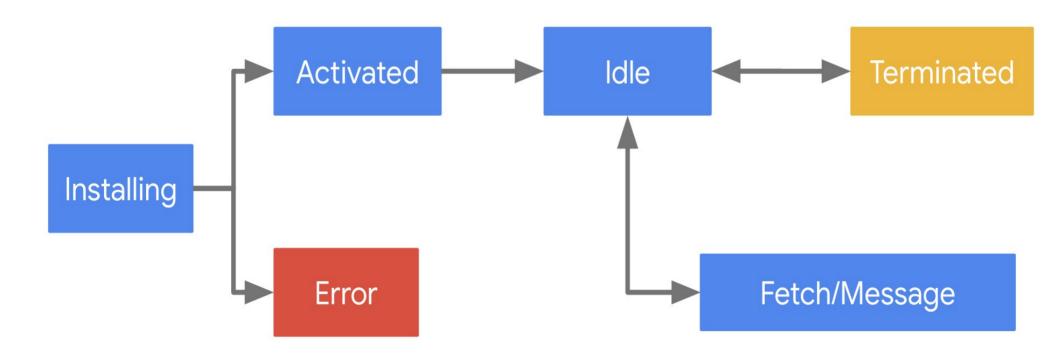

Debe de correr con el protocolo HTTPS
